BACKGROUND/CAREER OBJECTIVES

I am a full-stack web developer with a strong focus on digital branding. I combine both frontend and backend expertise to create seamless, interactive experiences that attract, inspire, and motivate users. My approach integrates clean code with visually appealing designs to deliver a lasting impact and engage users effectively

WORK EXPERIENCE

Gradient Technologies

Sep 2024 - Now

FRONTEND INTERN

Contribute to the project: Al image generation, converting templates from HTML to NestJS

Main responsibilities:

- Assisted in developing the frontend for an Al image generation project, ensuring a smooth user interface and experience
- Worked on converting static HTML templates into dynamic components using NestJS, ensuring responsiveness and compatibility
- Collaborated with backend developers to integrate frontend components with server-side functionalities
- Conducted testing and debugging to ensure seamless performance and fix issues as they arose

Results received:

- Conducted testing and debugging to ensure seamless performance and fix issues as they
- Improved skills in NestJS, frontend integration, and converting static designs into dynamic applications
- Gained hands-on experience in responsive design, code optimization, and collaborating in a cross-functional team.

NINA Trading And Services Co., Ltd

Apr2024 - Nov 2024

BUSINESS ANALYSIS

Contribute to website project: nailbox, lawyer

Main responsibilities:

 Gathered and analyzed customer requirements for website functionality and user experience

- Draw demo website design according to customer requirements
- Test website to reduce the number of errors when the website is put into operation

Results received:

- Enhanced skills in business analysis, requirements gathering, and translating business needs into technical solutions
- Contributed to the creation of user-centered designs that improved customer satisfaction
- Successfully bridged communication between clients and the development team to ensure accurate requirements were met

FPT Software Ho Chi Minh

Apr 2024 - Sep 2024

BACKEND INTERN

Contributed to a range of projects across Education, Human Resource Management, and Healthcare sectors.

Main Responsibilities:

- Designed and developed robust APIs to support front-end functionality and ensure smooth data flow
- Collaborated with cross-functional teams to define requirements, establish architecture, and deliver backend solutions
- Implemented security best practices to protect sensitive information, particularly in healthcare and HR applications
- Optimized database queries and backend processes to enhance performance and scalability

Results received:

- Successfully delivered scalable and high-performance backend systems for multiple sectors
- Improved API design and integration skills, resulting in seamless front-end and back-end interactions
- Gained experience in handling industry-specific data security and compliance requirements
- Enhanced teamwork and communication skills through collaboration with diverse project teams

EDUCATION

2020 - Now

SOFTWARE ENGINEERING

FPT University

Good

SKILLS

.Net Core

Experienced in building scalable applications and APIs

ReactJS

Proficient in creating dynamic UIs with ReactJS and state

MATHEMATICS - INFORMATICS

Nguyen Chi Thanh Gifted High School

National team of Informatics

NestJS

Skilled in developing backend services and REST APIs

SQL Server

Strong knowledge in database design, queries, and optimization

HTML

Expertise in building responsive, semantic web pages

Business Analysis

Experienced in requirements gathering, process mapping, and stakeholder communication
